

Product code : 30163A

EMFICOL 30163A

DESCRIPTION

Sprayable contact adhesive based on polychloroprene and synthetic resins in organic solvents.

AREAS OF APPLICATION

EMFICOL 30163A is used for quick bonding of foams made of polyester, polyether and latex between themselves or on different substrates like cardboard, particle board, wood, polyester, metal (steel, aluminium).

TECHNICAL DATA

Colour	Red
Viscosity	Brookfield LVT spindle 2 / 30 rpm : 550 ± 100 mPa.s
Density at 20 °C	0.86 ± 0.02
Conventional solids content (EN 827)	19.5 ± 2.5 %
Open time at 20 °C	30 min
Temperature resistance of the assemblies	Ca 80 °C
Final setting at 20 °C	2 to 3 d
Cleaner	EMFINET 695
Specific data	Freezing resistance : down to - 5 °C

ADVICE

See also material safety data sheet

INSTRUCTIONS FOR USE

The surfaces must be clean, dry and free of grease.

In damp and cold weather, ensure that materials and adhesive are at a correct temperature in order to prevent formation of dew as the solvents evaporate, which could result in defective bonding : adhesive and substrates have to be between 10 and 30 °C.

Apply with a manual or an automatic spray gun (nozzle diameter : 1,5-2 mm; air pressure : 3 to 5 bar ; product pressure : 1 to 1.5 bar) to both surfaces.

Spraying must be fine and even.

Let the solvents evaporate (2 to 10 minutes depending on temperature, coating weight and substrates).

Take care not to exceed open time ; otherwise, bonding will be defective.

Assemble precisely both parts (once the two substrates are assembled, they can't be repositioned or separated) and apply a short and strong pressure on the entire surface.

The high tack and good heat resistance of EMFICOL 30163A allows assemblies under strain.

CONSUMPTION

100 to 150 g/m² to both surfaces

STORAGE AND SHELF LIFE

12 months between 5 and 25 °C in closed original packaging.

PACKAGING

25 L metal cans ; 200 L metal drums

SAFETY

Highly flammable and irritant. Read material safety data sheet before use.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technological changes or research between the date of issue of this document and the date the product is acquired.

Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product.

Our guarantee applies within the context of the statutory regulations and provisions in force, current professional standards and in accordance with the stipulations set out in our general sales conditions.

The information detailed in the present technical data sheet is given by way of indication and is not exhaustive. The same applies to any information provided verbally by telephone to any prospective or existing customer.
